POSTSECONDARY  
EDUCATION  
COMMISSION

## Summary

This edition of *Student Profiles* seeks to provide comprehensive information about students in postsecondary education in California. It contains information on first-time freshmen and transfer students that used to appear in other Commission reports as well as many new facts from the Commission's computerized integrated student data system. Unlike most Commission reports, it contains little textual comment and analysis about the data. Instead, the Commission encourages readers to use it as the basis for their own analysis.

*Student Profiles* is divided into these six sections:

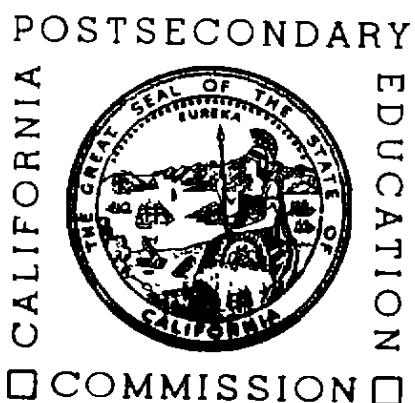

- 1 *All Students*, which provides information about all of California's college and university students in order to provide a context for later sections and an overview of how California's student body has changed over the last decade
- 2 Has been eliminated
- 3 *First-Time Freshmen and New Students*, reporting information regarding recent high school graduates, the origin of new first-time freshmen, average age of these freshmen and their sex and ethnic distribution
- 4 *Transfer Students*, offering information on community college transfers to the State's universities as well as transfer students from the other segments
- 5 *Student Outcomes*, reporting the number of degrees awarded by California's colleges and universities and which eventually will report graduation rate, student attrition, and persistence information
- 6 *Area Specific Student Data*, providing information on high school graduates and college-going rates by county, and community college transfer students by community college

Additional copies may be obtained from the Publications Office of the Commission at (916) 322-8024. Questions about the substance of the report may be directed to ZoAnn V. Laurente of the Commission, at (916) 322-8030.

# Introduction

THIS EDITION of *Student Profiles* is issued by the California Postsecondary Education Commission to provide comprehensive information about students in postsecondary education in California. *Student Profiles* contains a wide-ranging set of graphs and statistical tables that allows readers to gain an understanding of the characteristics of California students as well as trends in these characteristics, including eligibility for college and university admission, enrollment, transfer, and program completion. Unlike most Commission reports, *Student Profiles* contains little textual comment and analysis about the data. Instead, the Commission hopes that it will provide the basis for such analysis by others.

The primary purposes of *Student Profiles* are five-fold

- 1 To provide a context to facilitate policy analysis by presenting a global view of students in California,
- 2 To permit prompt response to basic inquiries regarding student information,
- 3 To serve as a basic source of data for research,
- 4 To function as the Commission's "official" guide to student statistics (that is, by supplying correct, agreed-upon data, even if disagreement exists about how these data might be used in different policy analyses), and
- 5 To stimulate the production of special topical reports when specific trends in higher education warrant more detailed analysis and description

## Publication History

Each edition of the *Student Profiles* series focuses on student data for the immediately preceding academic year and includes that year's subsequent fall term. Wherever possible, historical data is also provided. The first edition of the series, *Student*

*Profiles 1990* (Commission Report 90-23) was published in October 1990 and included data for the 1988-89 academic year as well as Fall 1989. The second edition, *Student Profiles 1991* (Commission Report 92-10) focusing on the 1989-90 academic year and Fall 1990, was published in March 1992. Throughout the remainder of 1992 and continuing through mid-1994, funding limitations and changes to segmental information systems -- primarily at the California Community Colleges -- resulted in a change in the publication process of *Student Profiles* data. Commission staff responded to the unavailability of data by providing updates to each section of the *Student Profiles* as they became available rather than by publishing separate annual editions, but maintaining the original format and report timeframes. *Student Profiles 1992* (covering the 1990-91 academic year and Fall 1991), *Student Profiles 1993* (covering the 1991-92 academic year and Fall 1992) and *Student Profiles 1994* (covering the 1992-93 academic year and Fall 1993) were developed and distributed in this manner without formal publication dates or report numbers. To reestablish a regular publication process and cycle, *Student Profiles 1994* has recently been designated as Commission Report 94-20. With the publication of *Student Profiles 1995* and subsequent editions, the Commission returns to an annual publication cycle as originally envisioned with sectional updates provided as data revisions warrant.

## Organization of the profiles

*Student Profiles* is divided into these five sections

### 1 All Students

The first section provides information about all of California's college and university students in order to provide a context for later sections and an overview of how California's student body has changed over the last decade.

### 2 Section 2 has been eliminated

### 3 First-Time Freshmen and New Students

This third section includes data that were formerly

displayed in the Commission's annual *College-Going Rates* reports. In addition to information regarding recent high school graduates, data in this section reflects the origin of new students, average age of all first-time freshmen, and sex and ethnic distribution of new students.

#### 4 Transfer Students

This fourth section contains information on community college transfers as well as facts about transfer students from the other segments. The Commission previously published this information in its annual *Update of Community College Transfer Statistics*. However, information in this section has been expanded in order to portray a more accurate sense of student flow, including transfers between campuses of the same segment and "reverse transfer" students -- those who begin their higher education in a four-year institution and then transfer to a community college.

#### 5 Student Outcomes

The fifth section of this *Student Profiles* report provides information on student outcomes. Ultimately, the Commission would like to present information beyond simply reporting the number of degrees awarded by California's colleges and universities including graduation rate, student attrition, and persistence information once student-specific data based on unique student identifiers is available. In the absence of student identifiers, the Commission intends to include more information in subsequent *Student Profiles* based on the results of its current student cohort study.

#### 6 Area Specific Student Data

The sixth and final section of *Student Profiles* provides information on high school graduates and college-going rates by county and on community college transfer students. These tables were previously published in the Commission's annual *College-Going Rates* report and its annual *Update of Community College Transfer Statistics*, respectively. It also includes information by county on student completion of high school courses required for college admission. Information on this subject is also published in the Commission's periodic reports on college eligibility.

### Sources of the data

California's colleges and universities are the sources from which the Commission assembles *Student Profiles*. The State's public universities and four-year colleges submit all of their enrollment and degree data to the Commission on machine-readable magnetic computer tape. The California Community Colleges submit their data to their Chancellor's Office, which currently transmits only their enrollment data to the Commission on tape and their degree data on hardcopy survey forms. California's independent colleges and universities submit all of their data to the Commission using hardcopy survey forms generated from the National Center for Education Statistics Integrated Postsecondary Education Data System (IPEDS) of the United States Department of Education.

### Categorization of independent institutions

In order to reflect the diversity that exists within California's independent sector of higher education and to facilitate meaningful comparisons with their public-sector counterpart institutions, the Commission arrays data from the State's independent colleges and universities in three groups that are comparable to the public segments. The criteria used by the Commission to establish these groups were (1) the set of high school courses required by the institution for admission, (2) the range of acceptable admission test scores for incoming students, and (3) the minimum high school grade-point average required for admission. The three groups are:

- 1 Independent institutions with admission standards comparable to the University of California,
- 2 Independent institutions with admission standards comparable to the California State University, and
- 3 Two-year independent institutions

The following list identifies these institutions by their group classification.

### *Group 1*

- 1 California Institute of Technology
- 2 Claremont Graduate School
- 3 Claremont McKenna College
- 4 Harvey Mudd College
- 5 Loyola Marymount University
- 6 Mills College
- 7 Occidental College
- 8 Pepperdine University
- 9 Pitzer College
- 10 Pomona College
- 11 Saint Mary's College of California
- 12 Santa Clara University
- 13 Scripps College
- 14 Stanford University
- 15 Thomas Aquinas College
- 16 University of the Pacific
- 17 University of Redlands
- 18 University of San Diego
- 19 University of San Francisco
- 20 University of Southern California
- 21 Westmont College
- 22 Whittier College

### *Group 2*

- 1 Azusa Pacific University
- 2 Biola University
- 3 California Baptist College
- 4 California Lutheran College
- 5 Chapman College
- 6 Christ College Irvine
- 7 Christian Heritage College
- 8 College of Notre Dame
- 9 Dominican College of San Rafael
- 10 Fresno Pacific College
- 11 Holy Names College
- 12 Loma Linda University
- 13 The Master's College
- 14 Mount Saint Mary's College
- 15 Point Loma Nazarene College
- 16 Southern California College
- 17 United States International University
- 18 University of La Verne
- 19 Woodbury University

### *Group 3*

- 1 American Academy of Dramatic Arts West
- 2 Brooks College
- 3 College for Developmental Studies
- 4 College of Oceaneering
- 5 Condie Junior College of Business and

### Technology

- 6 Don Bosco Technical Institute
- 7 D-Q University
- 8 Fashion Institute of Design and Merchandising
- 9 Marymount College, Palos Verdes
- 10 National Technical Schools
- 11 Queen of the Holy Rosary
- 12 San Francisco College of Mortuary Science

Data from only those independent institutions that have consistently provided data to the Commission over the last ten years have been included in the following tables, in order to allow trend analyses of the independent sector at large

Finally, because the following information about the independent colleges and universities comes solely from their IPEDS survey forms, which provide data only in aggregate format, the Commission is more limited in how to present it than for public institutions. In addition, those survey forms do not collect all of the information that the Commission collects through its individual student record data system.

### Caveats

Four limitations of all the following data should be noted

- One is simply that the statistics involve actual numbers of students -- "headcount students" -- rather than calculations of full-time-equivalent students
- The second is that while *Student Profiles* includes statistics on students in the State's four major segments of higher education -- the California Community Colleges, the California State University, the University of California, and California's regionally accredited independent institutions -- it does not cover statistics on two other areas of interest to the Commission (1) the State's private institutions that seldom submit student data to the Commission -- its non-accredited degree-granting institutions such as business schools and flight-training institutes -- and (2) California students attending college in other states. Both of these types of statistics are

needed for *Student Profiles* to present a fully comprehensive picture of college-going behavior on the part of California's young people

- Third, data for the sector of independent institutions may reflect significant fluctuations from year to year. This is due largely to inconsistent reporting by individual institutions over the years and should not be misinterpreted as unusual student activity in this sector. The Commission is involved in continuous efforts to verify data reports from institutions in this sector in order to more accurately portray the student characteristics of these institutions.
- Lastly, data in this latest edition of *Student Profiles* supercedes data previously reported by the Commission both for the specific year to which this edition is devoted and for the historical data provided. As a result of the Commission's data verification process, institutions are encouraged to submit revisions to current and prior year data previously reported. These revisions as well as data received after official deadlines are added to the Commission's database on a continuous basis. Therefore, data in this edition should be considered the most accurate available even though it may differ from similar data reported by the Commission in previous *Student Profiles*.

### **Feedback about the report**

*Student Profiles* is published by the Commission as part of its "postsecondary education information clearinghouse" responsibilities. The Commission staff hopes to continue to improve the quality and usefulness of these profiles by soliciting feedback from the systems and others. The Commission appreciates receiving comments about how to make this report and its other documents more useful as well as feedback about any errors of omission or calculation that should be corrected to make it more accurate. ### **Format of the report and availability of data**

The Commission publishes *Student Profiles* in a loose-leaf format to fit in three-ring binders so that additional tables can be added easily to the report. This allows the Commission's staff to provide updates to particular tables on a more timely and regular basis than might otherwise be possible or when major data revisions warrant. In addition to the published report itself, the Commission provides the data contained in this report on floppy disk or magnetic computer tape. The data tables and graphics were created using Excel software.
